

East West Rail

Choose the Right Route!

www.bfare.org.uk

A flawed 2019 Route selection consultation

- Inadequate Communication with residents
- Villages missed from proscribed consultee list
- No meetings held in Route E zone
- Route Costs Misrepresented
- Environmental Impact disregarded
- Freight and Diesel not consulted on

East West Rail Must Reconsult:

- Include a route following the existing transport corridor
- Must prioritise decarbonisation and lifetime environmental impact
- Must be transparent regarding
 - Costs
 - Freight
 - Environmental impact
 - Disruption
