

Staploe Parish Council

Street Lighting Inventory 23/3/2021

Staploe Parish Council own 21 street lights in the villages of Staploe, Duloe and Honeydon. All but one are mounted on brackets on telegraph poles.

The old yellow 35W sodium lights were upgraded to Indo Air 1 LED lights in February 2019.

Codes for the new Indo Air lights are:

Control Code – 42 0025 0000 100

Control Charge Code – 96 0000 0000 100

Switch Regime – D55

The remaining light (14A) is on a steel column outside 3, Duloe. It is 40W induction light which was installed by Bedford Borough Council (on the existing column) in December 2013 outside 3, Duloe (number B14A). ELEXON code 2500403000100. This is a low maintenance light with a service interval of 15 years. The column is an old one and was inspected by Andy Muskett in September 2021. He could not do a full structural inspection but his visual inspection deemed it to be safe.

Locations and numbers can be found here:

<https://staploe-pc.gov.uk/our-parish-council/assets/street-lights/>

There are 8 lights with asbestos present in the form of a rope seal around the door of the control box. Andy Muskett inspected all the lights and added asbestos warning stickers where needed in September 2020.

The lights with asbestos present are:

1 Staploe
7 Duloe.
9 Duloe, Woodhouse Lane.
10 Duloe, Woodhouse Lane.
14 Duloe
16 Honeydon, o/s East Cottage
19 and 20, Honeydon

Broken brackets replaced in Sept 2020:

12 Duloe, o/s 42.
15 o/s Chestnut Cottage, Gypsy Lane.

Broken bracket found number 20, Begwary on 23rd March
